

## Double-J/psi system in the spotlight of recent LHCb data

*вторник, 9 ноября 2021 г. 10:00 (30)*

Recently the LHCb Collaboration announced intriguing results on the double-J/psi production in proton-proton collisions. A coupled-channel interpretation of the measured di-J/psi spectrum is presented and a possible nature of the near-threshold state X(6200) is discussed.
