

**XXXIII International (ONLINE)
Workshop on High Energy Physics "Hard
Problems of Hadron Physics:
Non-Perturbative QCD & Related
Quests"**

Monday 08 November 2021 - Friday 12 November 2021

Scientific Programme

Topics to be discussed

- New Results in Hadron Spectroscopy
- Non-Perturbative Methods for Soft Hadron Scattering
- Quark-Gluon Matter at Finite Densities and Temperatures
- Lattice Simulations for Hadron Phenomenology
- Chiral Symmetry Breaking in Phenomenology and on the Lattice
- Progress in the Confinement Problem
- Rigorous Results in Gauge QFT

New Results in Hadron Spectroscopy

Non-Perturbative Methods for Soft Hadron Scattering

Quark-Gluon Matter at Finite Densities and Temperatures

Lattice Simulations for Hadron Phenomenology

Chiral Symmetry Breaking in Hadron Physics

Progress in the Confinement Problem

Rigorous Results in Gauge QFT
