

XXXIII International (ONLINE) Workshop on High Energy Physics "Hard Problems of Hadron Physics: Non-Perturbative QCD & Related Quets"

Monday 08 November 2021

Morning session 1: New Results in Hadron Spectroscopy (light quarks) (10:30-14:00)

-Организаторы: Sergey Sadovsky

time	[id] title	presenter
10:30	[47] Recent Progress in Partial-Wave Analysis	Prof. ANDREY, Sarantsev
11:00	[8] The scalar and tensor glueball in production and decay	KLEMPT, Eberhard
11:30	[43] Muon $g-2$: hadronic contributions	KESHAVARZI, Alex
12:00	[22] Determination of light scalar meson properties from dispersive and analytic methods applied to meson-meson scattering	PELÁEZ, José R.
12:30	[40] Nucleon axial form factors from lattice QCD	Prof. ALEXANDROU, Constantia
13:00	[55] Discussion 1	Prof. KLEMPT, Eberhard
