

XXXIII International (ONLINE) Workshop on High Energy Physics "Hard Problems of Hadron Physics: Non-Perturbative QCD & Related Questions"

Thursday 11 November 2021

Morning session 7: Progress in the Confinement Problem (11:00-14:30)

-Организаторы: Maxim Chernodub

time	[id] title	presenter
11:00	[19] Thermal monopoles in full QCD	D'ELIA, Massimo
11:30	[13] Centre Vortex Structure of QCD-Vacuum Fields and Confinement	Prof. LEINWEBER, Derek
12:00	[12] Abelian monopoles of the Dirac type and color confinement in QCD	SUZUKI, Tsuneo
12:30	[14] Excited States of Isolated Fermions in the Higgs phase of gauge Higgs theories	Dr MATSUYAMA, Kazue
13:00	[9] Confinement, mass gap and gauge symmetry in the Yang-Mills theory	KONDO, Kei-Ichi
13:30	[61] Discussion 7	Prof. GREENSITE, Jeff
