

XXXVII International Workshop on High Energy Physics “Diffraction of hadrons: Experiment, Theory, Phenomenology”

Tuesday 22 July 2025

Morning session (09:50 - 13:25)

-Conveners: Anton Godizov

time	[id] title	presenter
09:50	[9] Introductory greeting	PETROV, Vladimir
10:00	[10] Modern status of diffractive studies	Dr RYSKIN, Mikhail
10:45	[11] Unitarity effects in high-energy elastic scattering	LUNA, Emerson
11:30	Coffee break	
12:00	[12] Elastic proton-proton and pion-proton scattering in holographic QCD	WATANABE, Akira
12:45	[5] Pomeron weights in QCD processes at high energy and the SS -matrix unitarity constraint	Dr OUESLATI, Rami
