

XXXVII International Workshop on High Energy Physics “Diffraction of hadrons: Experiment, Theory, Phenomenology”

Wednesday 23 July 2025

Afternoon session 4 (15:00 - 19:30)

-Conveners: Maxim Evdokimov

time	[id] title	presenter
15:00	[17] Azimuthal modulation in diffractive vector meson/di-jet production in ultra-peripheral collisions	ZHOU, Yajin
15:45	[18] Single and double diffractive production of dilepton and photon at LHC	HAMEED, RABIA
16:30	Coffee break	
17:00	[19] Higgs bosons production and scattering processes beyond the perturbation theory	JAFAROV, Rauf
17:45	[20] Chiral symmetry, Conformal breaking, and transport coefficients in the two-flavour PNJL theory.	ЦЗИНСЮЙ, У
18:30	[21] General discussion 2: Discussion leader: Vladimir Petrov
