

XXXVII International Workshop on High Energy Physics “Diffraction of hadrons: Experiment, Theory, Phenomenology”

Thursday 24 July 2025

Morning session 5 (10:00 - 13:30)

-Conveners: Alexandre Kisselev

time	[id] title	presenter
10:00	[4] Regge trajectories in QCD	KIM, Victor
10:45	[1] Precise determination of the Pomeron intercept via a scaling entropy analysis	MORIGGI, Lucas
11:30	Coffee break	
12:00	[23] Covariant reggeization framework for diffraction	RYUTIN, Roman
12:45	[22] Energy dependence of cross sections in proton-proton and antiproton-proton collisions	ОКОРОКОВ, Виталий
