Session Program

24–26 нояб. 2026 г.

XXXVIII International Workshop on High Energy Physics and Field Theory “Current issues in gravitation and cosmology”

Afternoon session 4

ср, 25 ноября

14:30

Afternoon session 4: Chair person: TBA

Сессия

14:30–15:15 **TBA (…topics: Dark matter, Dark energy, Cosmology …)**

Speaker
Dmitry Gorbunov

15:15–16:00

Theoretical perspectives on the late-time cosmic acceleration in light of latest cosmological observations

Speaker
YIFU CAI

16:00–16:15 **Coffee break**

16:15–17:00

Testing gravity and dark energy with the Dark Energy Spectroscopic Instrument

Speaker
Cristhian Garcia Quintero

17:00–17:45 **The Cosmological Constant Problem and Unimodular Gravity**

Speaker
Julio Cesar Fabris

17:45–18:30 **Nonconservative theories of gravity**

Speaker
Hermano Velten

18:30–19:30 **General Discussion**

19:30
