Session Program

24–26 нояб. 2026 г.

XXXVIII International Workshop on High Energy Physics and Field Theory “Current issues in gravitation and cosmology”

Morning session 5

чт, 26 ноября

09:00

Morning session 5: Chair person: TBA

Сессия

09:00–09:45

Ground-based interferometric gravitational wave detectors: tests of General Relativity

Speaker
Valery Mitrofanov

09:45–10:30 **Quantum Measurements in Gravitational Wave Antennas**

Speaker
Sergey Vyatchanin

10:30–11:15 **New Frontiers in Gravitational-Wave Detection**

Speaker
Azadeh Maleknejad

11:15–11:30 **Coffee break**

11:30–12:15 **Geometry, Raychaudhuri Equations and Gravitational Waves**

Speaker
Debashis Gangopadhyay

12:15
