Session Program

24–26 нояб. 2026 г.

XXXVIII International Workshop on High Energy Physics and Field Theory “Current issues in gravitation and cosmology”

Morning session 3

ср, 25 ноября

09:00

Morning session 3: Chair person: TBA

Сессия

09:00–09:45

Development of a Cosmological Model within the Relativistic Theory of Gravity

Speaker
Yuri Chugreyev

09:45–10:30 **Vacuum polarization effects during the reheating epoch**

Speaker
Andrej Arbuzov

10:30–10:50 **Coffee break**

10:50–11:35 **Peculiar features of Dark Universe**

Speaker
Maxim Khlopov

11:35–12:20 **Towards a supersymmetric extension of bigravity**

Speaker
Юрий Зиновьев

12:20–13:05 **N=2 Higher-Spin Theories and Their Cubic Interactions**

Speaker
Nikita Zaigraev

13:05
